The following is an examiner's statement of reasons for allowance: the rejection of claims 34 and 35 under 35 U.S.C. 102 (b) has been vacated because the catalyst enhancement of Nay and the present invention are significantly different, and consequently, produce significantly different catalyst products.

The rejection of claims 1-39 under 35 U.S.C. 103 (a) as being obvious in view of Lapidus combined with Geerlings and further in view of Nay et al has been vacated based on the declaration filed under 37 C.F.R. 1.132. As illustrated by applicants the CO consumption is substantially higher in the present invention than Nay and Lapidus. That shows that catalyst products of Nay and Lapidus are different from the catalyst products of the present invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
